Nguyen Quoc Hung (1997) - Python Developer
Phone: 0379 362 236
Email: oscarnguyen126@gmail.com
Github: https://github.com/oscarnguyen126

I am a self-study developer with a great enthusiasm for Python.
Though my bachelor is not IT related, I love working with computers and start coding after graduation.

Experience

- 2022 - now   Python Developer at Cyberlotus Company
- 2019 – 2022   Intern BA and IT support at Viettel
- 2015 – 2019   Spanish department of Hanoi University

Skills

- Languages   Python, HTML, CSS, JS
- Frameworks   Django, Flask, VueJs, Odoo, FastApi
- Databases   PostgreSQL, MySQL
- Version control   Git

Soft Skills

- Teamwork
- Self-educate
- Research

Projects

1. Facility CRM: A module to book meeting room using Odoo framework	
Tasks	Check duplicate rooms and create reservations. Send mail to every participant when there is any update on reservations. Make a report and export to CSV. Write CRUD to manage equipment in each room.
Techs	Odoo, Postgresql

2. Project Sale ERP

Tasks	CRUD to manage agency/collaborator and client information. Contract template
Techs	Django, Postgresql, HTML, CSS

Some personal projects:

1. Hotel Booking	
Tasks	APIs CRUD rooms, facilities, register user, login/logout. UI.
Techs	Django, VueJs, Postgresql, Python, HTML, CSS

2. Spending Tracker	
Tasks	Manage income, outcome. Control spending, budget.
Techs	Odoo, Postgresql

https://github.com/oscarnguyen126/Pets-FastAPI
A simple CRUD API implemented with FastApi and Postgresql
